

# Harmony Adoptions

Harmony Adoptions is a licensed, non-profit adoption agency comprised of dedicated and experienced professionals who are considered leaders in the field of adoption. Since 1996, Harmony has offered a variety of programs that are nationally recognized for their clinical design, implementation, and exceptional outcomes. The professionals at Harmony are highly trained and are passionate about the difference they make in the lives of children and families. Since the agency's establishment fifteen years ago, Harmony's budget has grown to \$5,200,000 and supports over 100 professional staff across Tennessee.

For Tennessee's premier adoption agency, the real reward is knowing that one less child is out there waiting to be found, longing to be adopted, and just wanting to be loved. Headquartered in Maryville, Tennessee, but serving families across the state, Harmony Adoptions provides adoption services for families pursuing domestic and international adoptions, as well as services for birth parents. From Kazakhstan to California, children have found their forever families, thanks to the work of the dedicated staff of Harmony Adoptions.

Each year Harmony's programs serve over 1,000 of Tennessee's most vulnerable children and youth. Harmony's comprehensive continuum of care addresses each service that our clients and their families need in order for permanency to be achieved. By the

therapeutic assessments from our HART program, the preparation of individualized recruitment plans by our FOCUS team, and the counseling, support, and intervention of our nationally-recognized ASAP program, less than 1% of the adopted children Harmony works with return to foster care, compared to a national rate of 15-20%. This saves the State of Tennessee \$6.5 million each year and, most importantly, keeps children in the safety of a family.

In addition to client care, Harmony is known for delivering successful, outcome-based clinical trainings designed to enhance the work of adoption professionals across the country. Each year, over 2,000 of these personnel are trained in our highly effective, evidence-based clinical protocols. Harmony understands that education is vital and provides trainings to not only adoption professionals, but also to families and community organizations as well. These trainings are skill-based and are led by adoption professionals who provide direct care to children and families.

Harmony Adoptions is endorsed by the prestigious Council on Accreditation, has 15 years of experience managing multi-million dollar contracts, and has the infrastructure to create and implement creative and effective programs. Regarded as an expert in the field of adoption, Harmony is devoted to making a difference in the lives of children and families.
